

John Wisdom, Managing Director at Ctrack commented: “With the drive towards mobility more and more companies are using sophisticated mobile devices to enable their employees to remain connected wherever they are. Ctrack mobi2 uses the latest technology and innovation to ensure that vehicles and assets are always visible.”

**About Us**

Ctrack in the UK and Ireland are divisions of DigiCore Holdings, a global company listed on the Johannesburg Stock Exchange. Founded in the 1990s, DigiCore specialises in the research, development, manufacturing, sales and support of technologically advanced tracking and resource management solutions.

Under the Ctrack brand, DigiCore offers a wide range of vehicle location, personal and lone worker tracking, fleet and work flow management, satellite navigation and security tools - with cost effective and scalable solutions that offer a unique combination of flexibility, reliability and functionality. As a result, more than 600,000 systems have been fitted in 50 countries across five continents, making DigiCore the most comprehensive industry service provider worldwide.
